

22nd Annual Advanced Seminar

Cal•Neva Resort

Annual Advanced Seminar

The Advanced Seminar is for those who wish to expand their knowledge of analysis and adjusting to the cutting edge, make breakthroughs in motor skills, and strengthen practice and patient management. It is also a time to mingle and exchange experiences and ideas with some of the finest D.N.F.T.[®] doctors in the world.

We are happy to announce that this year's D.N.F.T. Advanced Seminar will be held in beautiful Lake Tahoe at the Cal-Neva Hotel. The dates of the seminar are August 5 - 8, 2010.

Included in the many topics to explore this year are:

- “Wedge subluxations” - knowledge of this newest cutting edge phenomena can revolutionize your practice. Full Spine Seminars cannot do justice to the details of this most important subject.
- The “flips” of DNFT procedures. The Sacro-Iliac, nuchal, and others. More experience has yielded deeper understanding of the interactions and effects.
- “Unzip Retracing” - still a relatively new topic, and now with deeper understanding about varieties, sequences, outcome, and more.
- “Phantom subluxations”, and phantom patterns - more clarity needed by many on this one.
- “Reduction and transform” technologies - how to arrive at the deeper underlying subluxation. This is essential knowledge, not mere refinement.
- The Atlas - should it be adjusted directly, or transformed? Current thoughts on this decision making process - possibilities and sequences.
- Certain subluxations about which to be “suspicious.” This will change the way that you look at subluxation diagnosis.
- Key muscles and ligaments that we dare not miss.

This seminar provides cutting edge information for even more success in your D.N.F.T. practice.

The Advanced Seminar has a special schedule format - with much free time, we can combine a resort getaway with professional knowledge. Over 70% of attendees have brought family or friends to our Advanced Seminars.

The prerequisite for the Advanced Seminar is attendance of either a Full Spine module, or both “Cervical and Thoracic” and “Lumbar and Thoracic” modules. Having some experience with the application of D.N.F.T. chiropractic is desirable, as it is not the intention to focus on basics alone. Students in chiropractic school are warmly invited to attend. Those who have come to past seminars have enjoyed creating new professional relationships and sharing ideas.

Advanced Seminar Schedule

Thursday

05:00 to 06:00 pm - Welcome reception and registration.
06:00 to 07:30 pm - Free time.
07:30 to 09:00 pm - Intro and Orientation Meeting for the Annual Advanced Seminar 2010.

Friday

08:00 to 10:30 am - Morning Advanced Seminar topics
10:30 to 11:00 am - short break.
11:00 to 01:00 pm - remainder of Morning Advanced Seminar Topics
06:00 to 09:00 pm - group event - Boat Ride Dinner

Saturday

08:00 to 10:30 am - Morning Advanced Seminar topics
10:30 to 11:00 am - Short break.
11:00 to 01:00 pm - Remainder of Morning Advanced Seminar Topics

Sunday

08:00 to 11:45 am - Morning Advanced Seminar topics
11:45 to 12:00 am - Diplomas and going home materials.
12:00 noon - End of Seminar.

The Seminar Fee Includes

- 3 1/2 Day Advanced Seminar meetings.
- Set of seminar notes.
- Lodging for three nights at the Cal-Neva Hotel - Thursday, Friday, and Saturday evenings. This does not include incidentals such as restaurant, room service, telephone calls, etc.
- Planned social event and dinner - excluding alcoholic beverages or extras beyond our planned menu.
- Advanced Seminar Cap, or T-shirt, or other memento.

Please note: this seminar is a package arrangement, and one can not attend the seminar and yet stay in a different hotel.

One may choose to stay extra days at the Cal-Neva either before or after the seminar, and *might* be able to receive special room rates (different for different days). These arrangements must be made through the D.N.F.T. Seminars office, and should be done as soon as possible to insure availability of room-days and special rates.

About Our Hotel, Location, and Optional Activities

We have had Advanced Seminars at the Cal-Neva Resort Spa & Casino in 1994 and 2002. Since then many have asked us when we would return to this incredible location!

One of the features of our room block is that premium rooms have a view of majestic Lake Tahoe. First choices will be assigned to those who get registered first.

Direct flights to the Reno airport are available from most major US cities. One can then either rent a car or take shuttle transportation to the hotel.

For California residents, this area can be accessed from different directions via major highways.

DRIVING TO LAKE TAHOE

On Friday night we will enjoy a sunset boat cruise and dinner - this is included with your seminar course fee. With a boat perspective view of the lake, we anticipate a social and culinary pleasure that has become tradition at our Advanced Seminars.

As with other Advanced Seminars, we may arrange for optional activities that we can share in small groups for the afternoons and Saturday night. We are presently exploring such possibilities and information will be forthcoming.

Be sure to register quickly!
Our room block is limited and the hotel informs us that other rooms will be sold out very soon for this weekend.
